

# Lake Dredging Update

Dredging is currently scheduled to begin **on February 27th at 7 AM**. The project will take approximately 30 working days, 10 hours per day (no work will be performed on weekends) and is expected to be completed by April, weather permitting.

During the course of work, the lake will be raised by approximately one foot and will remain at this level until dredging has concluded.

Have any questions regarding the dredging project? Please contact the Assistant General Manager of Operations, Adam Werle at [agm@montclairva.com](mailto:agm@montclairva.com)
